

Bio-Botanica®

PhytoBasics® COSMETIC BOTANICALS

Botanical Extracts for use in the Cosmetics and Personal Care Industries

PhytoBasics is an exciting and innovative line of botanical extracts for use in the Cosmetics and Personal Care industries. Manufactured by Bio-Botanica®, these products are unique from other herbal ingredients in the marketplace. They are produced utilizing the company's proprietary, Bio-Chelated® cold extraction process. This method is free of harsh chemicals, toxic solvents and excessive heat, yielding a truly bio-available botanical extract.

Since 1972, Bio-Botanica® has been a leading manufacturer and supplier of the finest-quality of botanical extracts for the beauty care industry. Products are produced in the company's FDA registered, pharmaceutically licensed facilities, which are cGMP, SOP and GLP compliant. Every herbal extract is validated for quality, purity and performance; key concerns when efficacy and safety of natural ingredients are applied to personal care formulations. Our botanical ingredients are of the highest quality in the industry.

If you are looking for natural ingredients or custom blends, Bio-Botanica® has over 100 products in the PhytoBasic family. Bio-Botanica® can create and deliver products tailored to your specific needs with strict confidentiality.

Discover what 35 years of cosmetic botanical experience
can do for you.
